HAIR CARE

WHY CHOOSE ALPECIN?

Dr. Wolff Research can look back on more than 80 years of experience with dermatology and galenic formulas, especially in scalp treatments.

Everyday, the Dr. Wolff research team is committed to developing innovations and improving existing products. Dr. Wolff Research performs this work internationally in close cooperation with renowned scientists.

Alpecin products help to solve common problems affecting the scalp and hair.

HOW DOES THE ALPECIN CAFFEINE-COMPLEX WORK?

The caffeine helps maintain healthy-looking hair and helps hair feel stronger. It travels all the way along the hair and can be detected after being left on for as little as 120 seconds. The caffeine develops a depot effect that lasts up to 24 hours. The proprietary Caffeine-Complex is formed by caffeine, along with the trace elements zinc and niacin.

HOW DOES ALPECIN DIFFER FROM COMPETITORS?

Alpecin is a well-adapted caffeine-containing hair and scalp care system that includes shampoos and a tonic to help energise hair. Alpecin has extensively investigated the caffeine effect:

"Only Alpecin actually know how caffeine works and how this ingredient is formulated correctly in order to be transported directly to the place where it is needed"

(Dr. A. Klenk).

Helps hair look thicker and feel stronger

- Washing hair daily with Alpecin Caffeine Shampoo C1 boosts the hair with enough caffeine to encourage the appearance of healthy hair, making it look thicker and feel stronger.
- The caffeine travels all the way along the hair and penetrates the hair root. It can be detected after being left on for as little as 120 seconds.
- By intentionally leaving out softeners such as silicone, the hair immediately has better grip.

Hair Energizer

- Daily leave on tonic for all hair and scalp types.
- Alpecin Caffeine Liquid is massaged into the scalp's problem areas and not rinsed out.
- The caffeine in the Alpecin formula travels along the hair, and forms a deposit of the ingredient for up to 24 hours.
- Alpecin Caffeine Liquid has a refreshing effect you can feel on the scalp, leaving the hair energized.

ALPECIN DOUBLE EFFECT CAFFEINE SHAMPOO 200ML

\$15.99 6

4008666210456

Anti-dandruff and helps hair feel stronger

- Dr. Wolff Research has developed a shampoo that counteracts two problems simultaneously. Firstly it loosens the scaly, keratinous cells and thoroughly removes dandruff from the scalp. This then clears the way for the Caffeine-Complex, which remains on the scalp for up to 24 hours and helps hair feel stronger.

ALPECIN TUNING SHAMPOO 200ML

Protects your dark shade and helps hair feel stronger

- The dark pigments in the shampoo adhere to the existing hair surface with every hair wash and keep dark hair looking dark. If a man starts using this shampoo early enough, the first grey hairs will become visible much later. The Colour Effect is inconspicuous - it only becomes more pronounced with regular use and washes out gradually with normal shampoo.
- At the same time, the Caffeine-Complex boosts the hair with enough caffeine to encourage the appearance of healthy hair, making it look thicker and stronger.

Plantur 39

Made for women over 40

HAIR CARE

DON'T PANIC ABOUT TIRED HAIR!

From the age of 40 the female body changes – and so does the hair.

From the age of 40 hair may thin and the scalp may become visible as the hairline recedes. Read here what you can do about it.

WHY PLANTUR 39?

In collaboration with the Dermatology Department of the Jena University Clinic (Germany), Dr. Wolff Research has developed an ingredient complex that promotes thicker, strong looking hair: **a phyto-caffeine complex.**

WHAT IS THE COMPOSITION OF PHYTO-CAFFEINE COMPLEX?

Caffeine: helps maintain healthy looking hair.

Phytoflavones (white tea extract, soy): improve hair and scalp resistance.

Zinc and Niacin: strengthen hair growth.

Not a day without caffeine

Plantur 39 caffeine is exactly dosed so that daily application makes hair feel stronger and thicker.

As a result, using Plantur 39 should become part of your daily routine, applied regularly and in a sustained manner.
